Subject: RE: Standards and others

Hi Lam,

I have been too busy with other projects to get to this. My colleagues at NC State have been using the standards and measuring for these analytes in water. I am actually unsure when/if I will ever get to this.
Mark

Hi Mark,

I hope things are moving along nicely with you these days and I wonder if you have a chance to "re-visit" some of the standards we sent you. Please let me know. Thanks.

Best Regards,
Lam

Lam,

I have too much to do and not enough time to do it. I have not picked this issue back up recently. We are on to other endeavors. I hope to get back to it soon.

Mark

Subject: Standards and others

Hi Mark,

I hope you are doing well these days and I just want to touch base and see if you have made any progress in terms of the standards we shipped you. I also want to let you know that we have shipped "Table 3" standards to Detlef Knappe (NC State) and Jannie Shaw-Busby (Gel Lab) but I'm not sure if you have any contact with them. Anyway, I do like to learn

about your findings regarding the standards we have provided to you and perhaps we can touch base and discuss if you have some time. Please let me know.

One last thing is in case you might not know, our company has a website which has provided information regarding Fayetteville Works and C3 Dimer Acid. Check it out.
